

1) Normal

top2tdq-studio-se.list	All from the top svn repository
tdq2tdq-studio-ee.list	All from the tdq svn repository
tom2tmdm-studio-se.list	All from the tom svn repository
tem2tmdm-studio-ee.list	All from the tem svn repository

2) About “tis\_private2tcommon-studio-ee.list”. Don't do split, need check with TAC team, like the commandline and configurator should be tcommon-studio-ee for other products. But for other projects, don't know.

3) for tos, It mainly based on the features, so for tdi-studio-se, there is less content in the file. Maybe it's not good at all. Nee confirm first. If need more details, please read the “tos2tXXX.readme” in tos folder.

4) for tis\_shared, please read the “tis\_shared2tXXX.readme” in tis\_shared folder.
