1) Don't know where should be placed for the following :

HashTests
development

org.eclipse.swt.unknown

org.talend.studio.workflow.workspace

2) Don't know will be tcommon or tdi?

org.talend.rcp.branding.thales
org.talend.rcp.branding.thales-feature
org.talend.thalestechnical-feature
org.talend.designer.components.thalesprovider

org.talend.rcp.branding.dqsh
org.talend.rcp.branding.dqsh-feature
org.talend.rcp.branding.kurtosys
org.talend.rcp.branding.kurtosys-feature
org.talend.rcp.branding.lynasetl
org.talend.rcp.branding.lynasetl-feature
org.talend.rcp.branding.tod
org.talend.rcp.branding.tod-feature
org.talend.rcp.branding.wdci
org.talend.rcp.branding.wdci-feature

And

org.talend.rcp.branding.jetl
org.talend.rcp.branding.jetl-feature
org.talend.rcp.branding.jetl.bigdata
org.talend.rcp.branding.jetl.bigdata-feature
org.talend.rcp.branding.jetlexpress
org.talend.rcp.branding.jetlexpress-feature
org.talend.rcp.branding.jetlplus
org.talend.rcp.branding.jetlplus-feature

3) In "tis_shared2tcommon-studio-ee.list", About the remote plugins, should be tcommon or tdi? Because those functions should be for all products.

~~org.eclipse.emf.teneo~~
~~org.eclipse.emf.teneo.annotations~~
~~org.eclipse.emf.teneo.hibernate~~
~~org.eclipse.emf.teneo.hibernate.mapper~~
~~org.talend.repository.databaseprovider~~
~~org.talend.repository.databaseprovider-feature~~
~~org.talend.repository.databaseprovider.nl~~
~~org.talend.teneo.model~~
~~org.talend.teneo.model.test~~
~~org.talend.repository.refproject~~
~~org.talend.repository.remoteprovider~~

org.talend.repository.remoteprovider-feature
org.talend.repository.remoteprovider.test
org.talend.repository.svnprovider
org.talend.repository.svnprovider-feature
org.talend.repository.svnprovider.nl
org.talend.repository.svnprovider.test
org.talend.libraries.sequence
org.talend.repository.view.svn

PS, if strikethrough, means have added the list file.

4) In "tis_shared2tbd-studio-ee.txt", Because the plugins of org.talend.tismpx-feature are all for BD, so Maybe should put it in tdb-studio-ee.

org.talend.tismpx-feature

5) In "tis_shared2tcommon-studio-ee.txt" , about the brandings:

org.talend.rcp.branding.esbdqenterprise-feature
org.talend.rcp.branding.esbdqenterprisempx-feature
org.talend.rcp.branding.esbdqprofessional-feature
org.talend.rcp.branding.esbdqteamedition-feature

org.talend.rcp.branding.talendplatform.bigdata-feature
org.talend.rcp.branding.talendplatform.bpmdqee-feature
org.talend.rcp.branding.talendplatform.bpmdqeempx-feature
org.talend.rcp.branding.talendplatform.bpmee-feature
org.talend.rcp.branding.talendplatform.bpmeempx-feature
org.talend.rcp.branding.talendplatform.bpmpe-feature
org.talend.rcp.branding.talendplatform.bpmte-feature
org.talend.rcp.branding.talendplatform.cloudbpmeempx-feature
org.talend.rcp.branding.talendplatform.cloudee-feature
org.talend.rcp.branding.talendplatform.cloudeempx
org.talend.rcp.branding.talendplatform.cloudeempx-feature
org.talend.rcp.branding.talendplatform.cloudpe-feature
org.talend.rcp.branding.talendplatform.cloudpertx-feature
org.talend.rcp.branding.talendplatform.cloudte-feature
org.talend.rcp.branding.talendplatform.dsee-feature
org.talend.rcp.branding.talendplatform.dseempx-feature
org.talend.rcp.branding.talendplatform.dspe-feature
org.talend.rcp.branding.talendplatform.dste-feature
org.talend.rcp.branding.talendplatform.esbbpm-feature

Because some are depend on ESB, DQ, DB, etc. so will be in tcommon-studio-ee or not?

6) In "tis_shared2tcommon-studio-se.txt", because:

Because tis_shared/org.talend.tooling_feature and top/org.talend.rcp.branding.top_feature
org.talend.update.p2-feature

Because in org.talend.tis_feature
org.talend.designer.tdqmatching

~~org.bonitasoft.studio.common.nl~~
~~org.bonitasoft.studio_1.0.0.5_10-feature~~
~~org.talend.bpm~~
~~org.talend.bpm-feature~~

Because org.talend.bpm-feature
~~org.talend.designer.esb.bpm.core~~
~~org.talend.designer.esb.bpm.ui~~

Don't know is it ok for bpm-feature in tmdm-studio-ee?
